

Enabling Smart Mobility.

Fluidtime

Gemeinsam für
bessere Mobilität
seit über 15 Jahren.

Play an active role in shaping tomorrow's mobility and contribute to sustainability.
Become an important member of a team of dedicated software developers.
We value different opinions and act together.
We like to work and celebrate together, both virtually and in our loft office in Vienna's 7th district.

Join our team now and become part of Fluidtime as:

Senior Software Engineer Java

Place of employment: 1070 Vienna; 38.5 hours / Full time; Immediate; Permanent

Your tasks:

- Independent implementation of interesting and varied software features as part of a team
- Develop server applications based on Java technologies
- Create APIs to connect web interfaces and mobile applications
- Integration of external services (e.g. payment, routing, booking, ...)
- Actively contribute to the architecture of a complex software solution
- Become a valued member of a team of dedicated software developers in a company with a friendly working environment

This job is perfect for you if you have:

- Solid IT knowledge (HTL, FH, University)
- At least 5 years of professional experience in Java development (Java 11+ - including functional aspects)
- Experience with Java development environments (e.g. IntelliJ, Eclipse, ...)
- Experience with relational data modelling and database systems (e.g. PostgreSQL, ...)
- Experience in working with and designing web services (e.g. REST, XML, JSON, ...)
- Experience with JPA implementations (e.g. Hibernate, ...)
- Interest in current trends and long-term, continuous development of sustainable products
- Ability to work in a team, willingness to develop, sense of responsibility and reliability
- You value quality and accuracy, which is reflected in the way you work
- You like to take the initiative and drive issues that are important to you
- You are open to different opinions and enjoy working as part of a team

Ideally, you also have:

- Extensive knowledge of Java technologies and common frameworks
- A good understanding of implementing concurrent processes
- Experience in working with common build tools (e.g. Gradle, ...)
- Experience in working with geospatial data (e.g. GeoJSON, ...)
- Experience with continuous integration and delivery (e.g. Jenkins, Sonar, Docker, ...)
- Residence in Vienna or nearby

We are looking for people who are looking for a professional challenge and want to take on responsibility to make a difference.

As part of Fluidtime, you will benefit from flexible working hours and a generous home office arrangement. We cultivate a pleasant, open and above all friendly working environment so that working in your team is fun. We support this with a clear and efficient work structure, staff meetings and regular team events.

If you are ready to make a difference together with other experienced developers, we look forward to receiving your application by email at jobs@fluidtime.com.

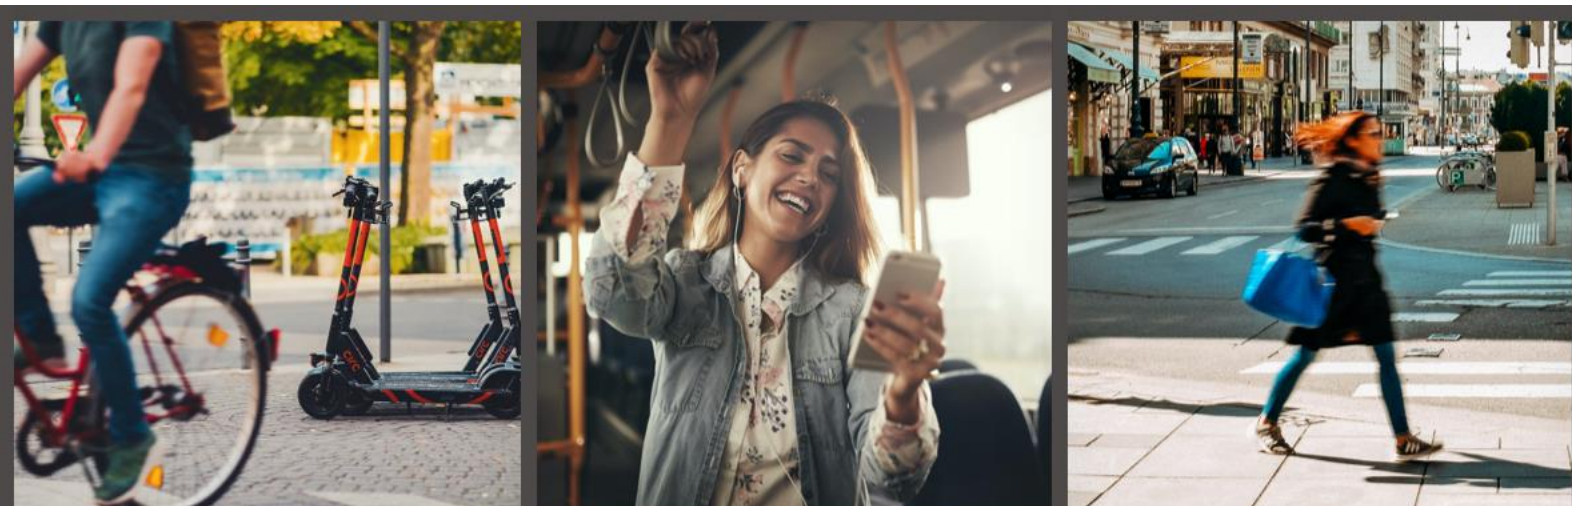

You can also visit us at www.fluidtime.com.

Your contact person: Michael Tucek

The minimum salary for this position is EUR 3,910 gross per month. Actual salary will depend on qualifications and experience.

Not the right job for you? Maybe you have a friend who would be more suited to this job. We would be very grateful if you would forward this job offer to them. Thank you very much!

Write to us even if this job does not match your profile 100%. Simply send your unsolicited application to jobs@fluidtime.com.
